F I T N E S

N G I N I

We do not stand still. It is not in our nature. While the world around us moves fast, we move faster. The pursuit of being better is at our core. Program evolution delivers us closer to our goals. Ergonomically conceived equipment is our revolution in the room. We'll work out smarter. Feel more connected to our commitment. To get fitter and healthier, faster. We do not stand still. It is not in our nature.

Winning numerous design awards, SMART TECH equipment is considered best in class³ and is designed to maximize efficiency & results for your members. Developed by Les Mills, the global leaders in group fitness SMART TECH significantly outperforms traditional equipment in all areas of functionality.²

PAYS TO BE GREAT

Almost 50% of those considering joining a facility look at 'Great Equipment' as a major influencer of their purchase.

It is the third largest driver of a membership decision, falling only behind location and price. ¹

QUALITY MEANS QUANTITY

56% of participants say that the quality of the equipment they use for BODYPUMP™ has an influence on whether they choose to continue their membership.²

ATTENDANCE UP

Clubs have shown great increases in BODYPUMP attendance by implementing proven Les Mills club solutions. Including SMART TECH equipment, top programming, instructor training and education resources.⁴

A BETTER EXPERIENCE

Among BODYPUMP members who've used both SMARTBAR™ and other brands of equipment, three quarters say they get a better experience using SMARTBAR.⁵

The better the member experience the longer they stay at the club.

E

LES MILLS SMARTBAR
DESIGNED FOR HIGH PERFORMANCE.
ENGINEERED FOR RESULTS.

The latest SMARTBAR is the industry's benchmark for effectiveness in fitness.

At the cutting edge of innovation & design, SMARTBAR is engineered for workouts that work & solves problems that traditional barbells never knew they had.

Enhancing form, results and enjoyment for your members, SMARTBAR is the ultimate in fitness equipment.

LESMILLS SMARTBAR

ENGINEERED FOR

LESMILLS BODYPUMP

CXWORX

HOW SMARTBAR STACKS UP

	STANDARD BARBELL	SMARTEAR
Quick and easy clip-free plate transitions		
Plates double as ergonomic hand-weights, replacing dumbbells		
Rotating ends for smoother movement, improved form and effective muscle isolation		
Strong & durable construction		
Ideal for both group fitness and personal training		

TEXTURED GRIP ZONES

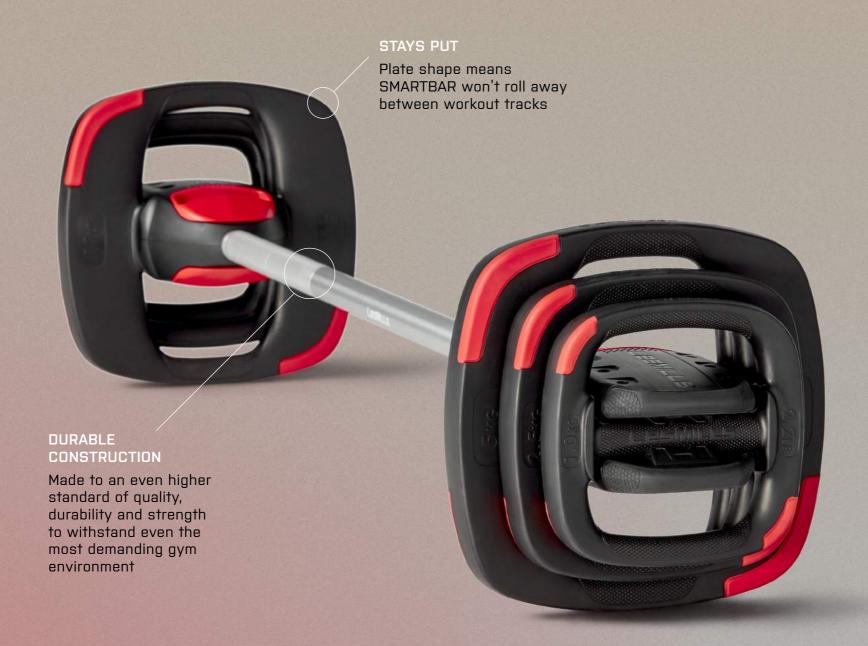

For improved comfort and control when used as a hand-weight.

IMPROVED GATOR

Plate changes are even faster and smoother with the unique 'gator' design. Pull the red release lever and slide plates off with ease.

EACH SMARTBAR SET INCLUDES:

1 X SMARTBAR BAR

2.6kg (131 x 13.1 x 9.1cm)

SMARTBAR PLATES (two of each)

1kg (18 x 3.4 x 18cm) 2.5kg (21 x 3.4 x 21cm) 5kg (27 x 3.4 x 27cm)

AVAILABLE SEPARATELY

3.7kg PLATE [24 x 3.4 x 24cm] **7.5kg PLATE** [31 x 3.6 x 31cm] **10kg PLATE** [33 x 3.6 x 33cm]

SMART STORAGE

THE SMARTBAR STORAGE RACK HOLDS:

BODYSTEP

HOW LES MILLS SMARTSTEP STACKS UP

No need for rack storage saves valuable floor space	STANDARD STEP	LESMILLS SMERTSTEP
Can be moved in one piece between tracks	SOME	
Multi-directional surface grip and non-slip feet		
Surface is comfortable for back and hands		
Target line on deck aids correct foot placement		
Can be used on an incline		
Ideal for both group fitness and personal training		

Multi-directional surface improves underfoot grip while increasing back and hand comfort during bench work

Functionality for more effective propulsion work (one riser) and bench work (up to four risers)

Improves foot placement, and can act as a coaching reference - helping to increase correct muscle activation

SMILLS

Non-slip feet and improved riser locking allows you to leap with confidence

CONTOURED SIDES

Makes it easy to carry & move around

DURABLE CONSTRUCTION AND ENGINEERING,

Proven to withstand the most demanding levels of use

NON-SLIP

Rubber feet improve shock absorption and reduce strain on joints

Dramatically improves stability and makes riser placement easier and faster

SMART STORAGE

LES MILLS SMARTSTEP IS DESIGNED TO NEST IN SEPARATE PIECES, ALLOWING SAFE STACKING UP TO 20 UNITS HIGH WITHOUT REQUIRING A RACK.

This saves valuable studio floor space compared with some other step brands.

LES MILLS SMARTSTEP

5.96kg [105 X 42 X 10cm]

LES MILLS SMARTSTEP
RISERS (PAIR)

0.7kg [42 X 42 X 13cm]

Complaints about equipment have plummeted in all the clubs that have SMART TECH. In fact, I'd go so far as to say I've never heard a single negative comment about this equipment, ever.

John Blackburn Head of fitness and customer experience, UK

The clearest indicator of the success of SMART TECH at our clubs has been class attendance: occupancy in classes using SMART TECH is 12 per cent higher when compared to France most other classes

Scott Niven Head of fitness. UK

LES MILLS SMARTSTEP is modern, trendy and beautiful. It's always remarked upon by members and prospects

Magalie Legros Club Sales.

My advice to other operators considering whether they can justify the expenditure on SMART TECH is simply this: can you afford not to?

Sharon Campbell Health & fitness manager, UK

The LES MILLS SMARTBAND has a great feel. The movement and stretch in the band is smoother. especially in fast, dynamic movements such as the wood-chop. It anchors well under the feet and feels much more secure

Renee Jones Club owner, Australia

The ergonomic design of the SMARTBAR makes workouts feel safe, stable, comfortable and more enjoyable. It looks professional and modern and doesn't compromise the quality of members' workouts

Andrew Warburton Instructor, Australia

The LES MILLS SMARTSTEP is wider. more stable and less slippery. We feel more confident in class

Mireille Desse Class participant, France

The mats are AWESOME! Comfortable and just the right thickness. You can grip the mat easily with bare feet and the mat is 'heavy' enough to grip the floor and remain in place for the whole class in a variety of poses. It has hook eyes for storage and is very easy to clean. I highly recommend

Elaine Denton Instructor UK
